DISCLAIMER & RISK WARNING

The TAS Futures Trading & Training Room, as well as this publication, is for educational purposes only and should ONLY be used to study the actions and activities of the markets. Collectively, they are NOT designed to provide any investment advice and should not be used as such.

Trading can result in large losses and may not be an activity suitable for everyone.

Hypothetical or simulated performance results have certain inherent limitations. Unlike an actual performance record, simulated results do not represent actual trading. Also, since these trading setups may not have actually been executed, the results shown may have under or over compensated for the impact, if any, of certain market factors such as lack of liquidity.

Simulated trading programs in general are also subject to the fact that they are designed with the benefit of hindsight. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown.

The author(s), publisher(s) and room moderators are not providing investment or trading advice and do not make claims, promises, or guarantees that any suggestions, systems, trading strategies, or information will result in a profit, loss, or any other desired result. By virtue of your subscription, paid or otherwise, this information is being specifically provided at your request. All readers and room participants assume all risk, including but not limited to the risk of trading losses.

Earnings and economic releases posted in our trading and training rooms are typically provided by Briefing.com and are subject to change without notice. Please verify all earnings dates with an independent source of your choice. Please remember that all market commentary in our rooms is for educational purposes only and should not be construed as investment advice regarding the purchase or sale of securities, options, equities or any other financial instrument of any kind. Information for our market observations is obtained from sources believed to be reliable, but we do not warrant its completeness or accuracy, or warrant any results from the use for this or any information provided in our trading and training rooms.

THIS IS NOT A SOLICITATION TO BUY OR SELL SECURITIES. Always seek the advice of your professional investment advisor before making any investment decisions.
