## Installation process for the T-3 Fibs ProTrader

To install the programs you will have to run the T-3 Setup.exe file that is supplied to you from Nexgen.

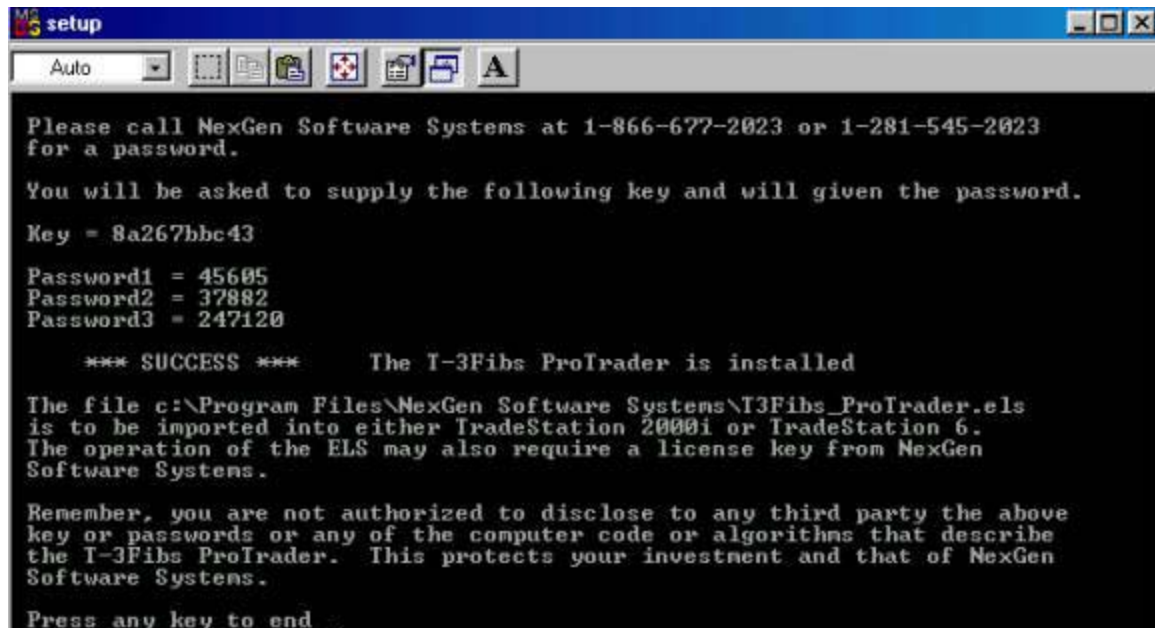

If you downloaded the files from your e-mail you will have to run the Setup.exe by double clicking on it. If in Hotcomm you will need to click on the files sent to you in your private chat room by clicking on the LINK that you will see after Nexgen Staff has sent your files to you.

Once you run the setup program you will be at a Dos Prompt installation window that will ask you for 3 passwords to be typed in one at a time and clicking enter after each to get to the next. Call Nexgen technical support for these passwords or type in the KEY into the private session of hotcomm. You will be asked to read off the key numbers and letters that are specific to your installation. In summation. GIVE THE KEY TO THE PERSON LOADING YOU and they will give you the 3 passwords (PW'S). You will need to click enter once after each password to get you to the next password.

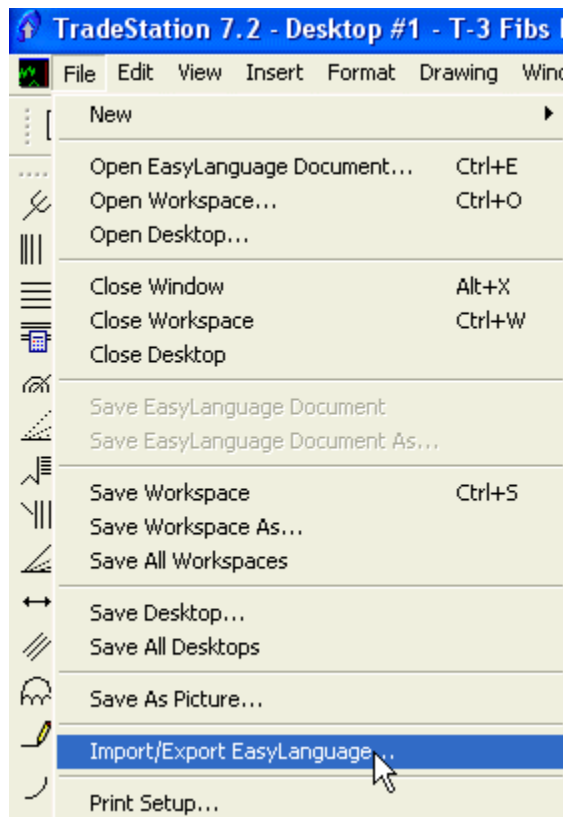

```
setup
Auto
Welcome to the install process for the T-3Fibs ProTrader.
You will need a password to enable the operation of the T-3Fibs ProTrader.
Please call NexGen Software Systems at 1-866-677-2023 or 1-281-545-2023
for a password.
You will be asked to supply the following key and will given the password.
Key = 8a267bbc43
Password1 = 45605
Password2 = _
```

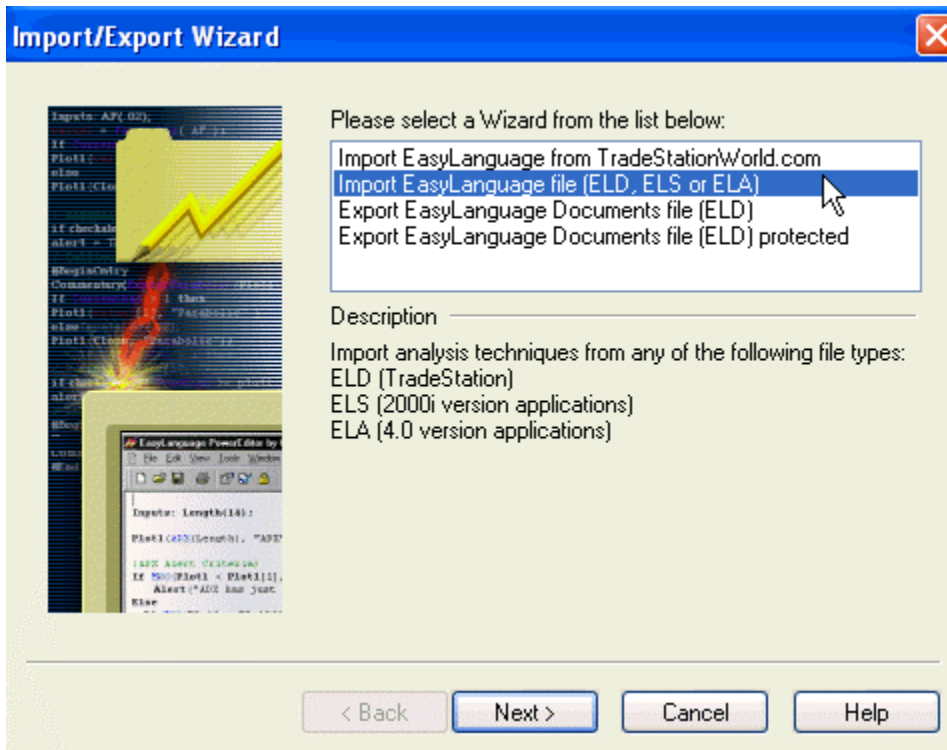

Once you have typed in all of your passwords correctly and hit enter the last time you will get the following success message. Just hit enter to end and close the DOS screen.

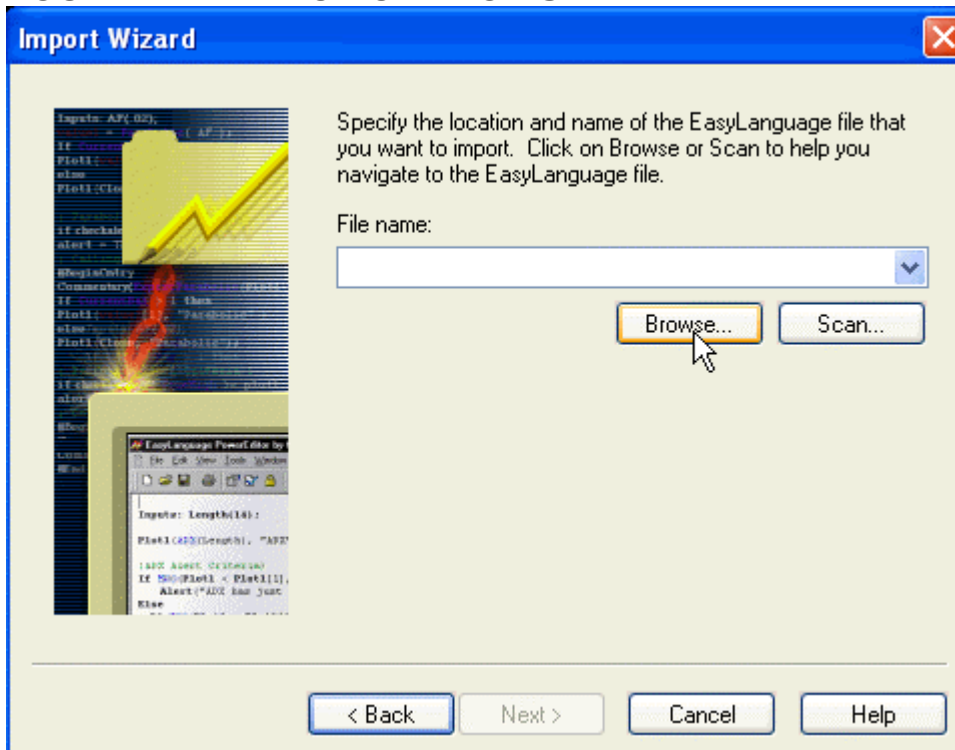

You will now have to import your Indicators into Tradestation. To do this please open your power editor ( 2000i) or your Tradestation 6.x , 7.x or 8.x. From the main screen of either you will click FILE then IMPORT/EXPORT EasyLanguage file.

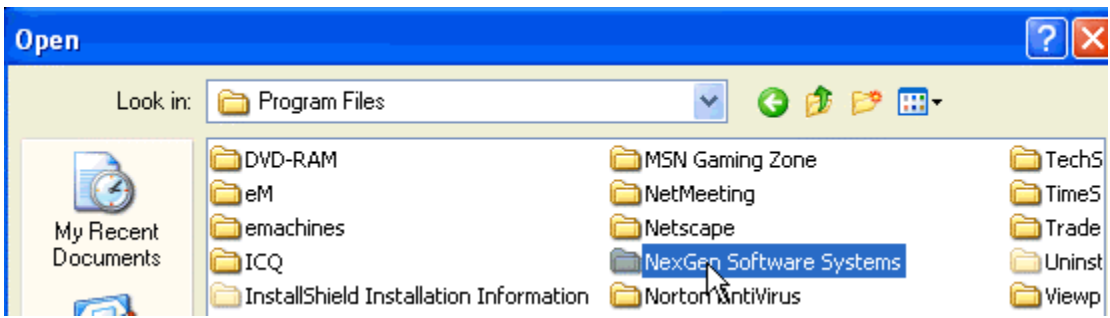

**THEN SELECT IMPORT EASY LANGUAGE FILE.**

## YOU WILL THEN CLICK BROWSE

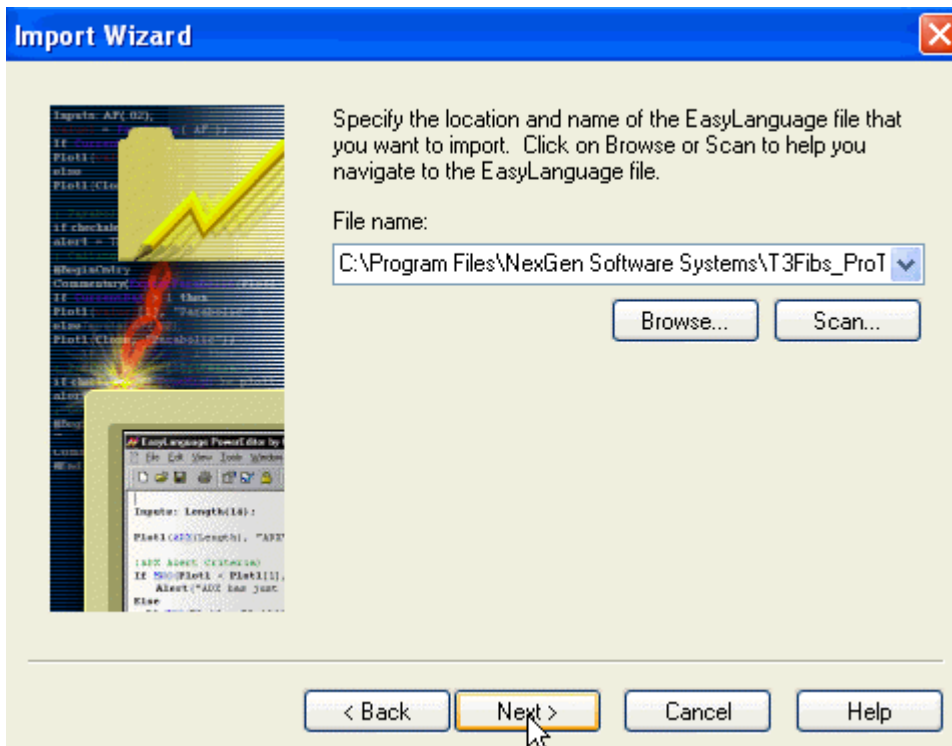

**SELECT THE DROP DOWN MENU AND CLICK ON PROGRAM FILES THEN GO TO THE NEXGEN SOFTWARE FOLDER AND THEN OPEN IT.**

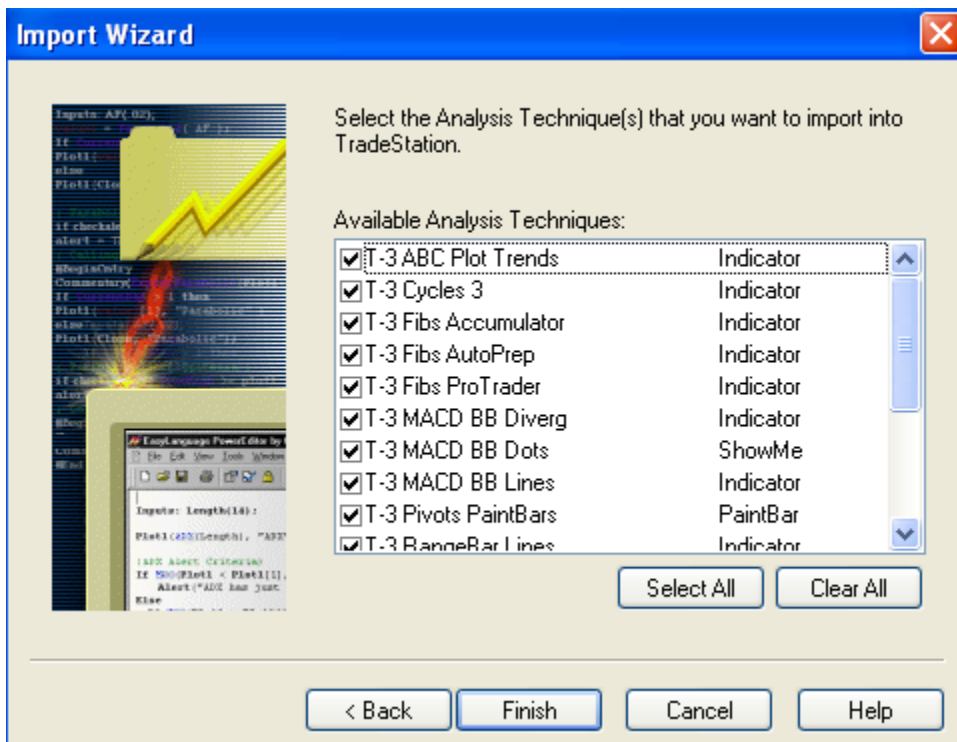

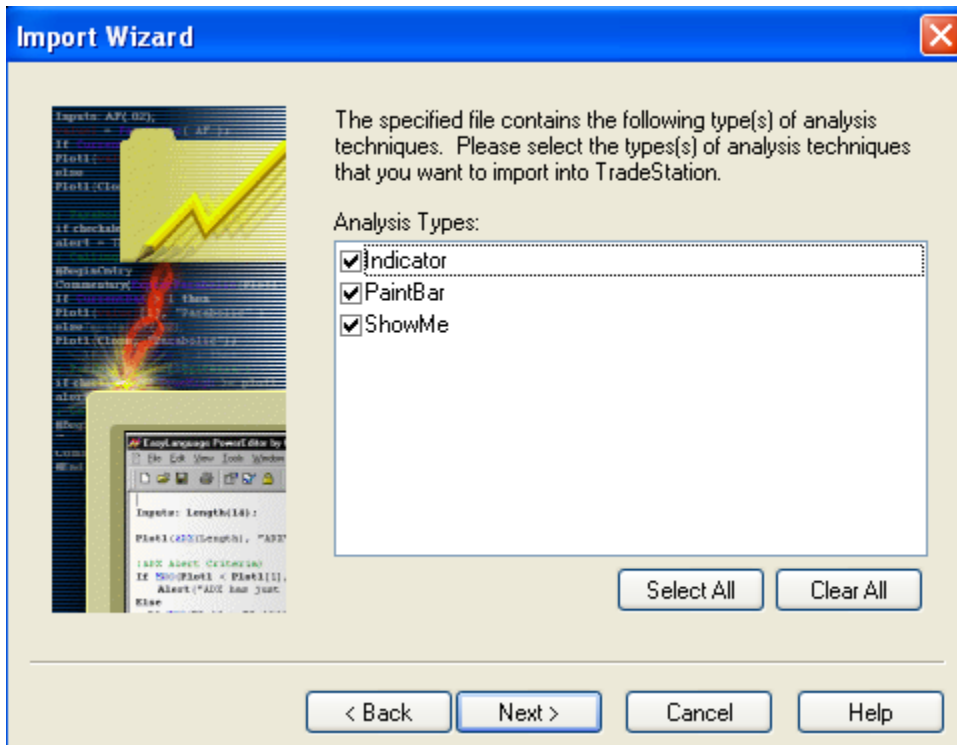

**YOU WILL SEE THE FILE T-3 FIBS PROTRADER SELECT IT AND CLICK OPEN.**

**THEN YOU WILL CLICK NEXT – NEXT AGAIN – THEN FINISH AND YES TO IMPORT FUNCTIONS AND STUDIES ASSOCIATED WITH THE ANALYSIS.**

**YOU NOW HAVE IMPORTED YOUR INDICATORS SUCCESSFULLY.**

Once your indicators are loaded you will need to download any of our pre-made workspaces and templates.

TO DO THIS GO TO OUR DOWNLOADS PAGE ON OUR WEBSITE AT <http://www.nss-t3.com/downloads.htm>

SCROLL DOWN TO WHERE YOU SEE THE WORKSPACES FOR CLIENTS AND CLICK ON ONE OF THEM.

**T-3 Fibs Workspaces for users of the program - save to**  
**C:\Program Files\TradeStation 7.2 (Build 1563)\MyWork**

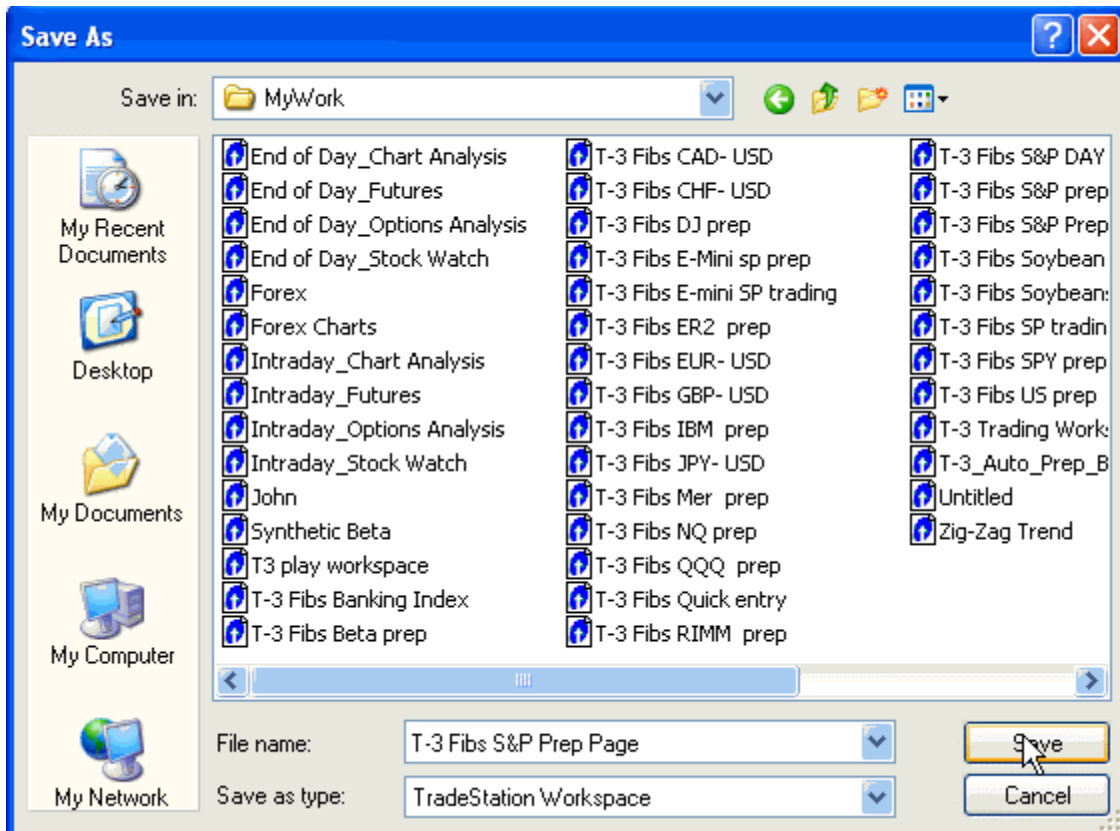

1. [S&P daytrading workspace](#)
2. [Nasdaq daytrading workspace](#)
3. [E Russell daytrading workspace](#)
4. [Dow Jones daytrading workspace](#)
5. [US 30yr. daytrading workspace](#)
6. [10 yr. TY daytrading workspace](#)
7. [EC- FX \(futures\) daytrading workspace](#)
8. [USD-EUR daytrading workspace](#)
9. [USD-JPY daytrading workspace](#)
10. [USD-CHF daytrading workspace](#)
11. [USD-CAD daytrading workspace](#)
12. [USD-GBP daytrading workspace](#)
13. [QQQ - daytrading workspace](#)

AFTER CLICKING AND DOWNLOADING THE WORKSPACE IT WILL ASK YOU WHERE TO SAVE IT. SAVE IT TO THE MYWORK FOLDER.

C:\Program Files\TradeStation 8.1 (Build current)\MyWork

Repeat this process for each of the workspaces that you wish to run.

**Tradestation by default will only have a limited amount of tick data and Nexgen tries to archive extra historical tick data so that you may go back and test the software on larger amounts of data.**

To download this data please click on the link below the workspaces and save this file to your desktop. DO NOT PUT IT IN THE MYWORK FOLDER.
